- An immigration bail bond is a federal bond that is issued to an individual arrested and detained for being in the U.S. illegally.
- The detention and arrest is usually made by the US officials from Immigration and Customs Enforcement (ICE).

Types of Immigration Bond

Delivery Bond

- Issued to a detained illegal immigrant with a standing order to appear in court within a limited time.
- Allows the arrested individual to spend time with family and consult with an immigration lawyer.

Voluntary Bond

- Issued so that the immigrant has the opportunity to leave the country within a specific period of time by paying a specified amount of money.

How to Pay an Immigration Bond

- An immigration bond can be paid in two basic ways:

Surety Bond

- Friends or family members can work with an immigration bond agent to get a surety bond.
- A bail bond agent will typically charge 15-20% of the total bond amount. The fee or collateral is non-refundable.

Cash Bond

- Friends and family members of the arrested individual can pay the full amount of the bond directly to ICE.
- This amount will be refunded once the person appears in every scheduled hearing in court.
- A cash bond can be made by cash, cashier's check, money order, US bonds or notes.
